

Pergamon Mu

**A new computer management system designed for primary school libraries.
Secondary schools are welcome to attend as it may suit your needs.**

Please join us for a demonstration and chance to ask questions on

Thursday 22 March 2018 at

Babcock SLS Centre, Willand

11am – allow 2 hours

Unit 16 - 17, Southview Industrial Estate, Blackdown Park, Willand, Cullompton, EX15 2QW

Pergamon Mu is a simple but powerful system from Esferico. It is easy to install, reliable and a very cost-effective option for primary schools looking for the basic library functions of issuing and returning books, a searchable library catalogue, sending out overdue reminders and generating statistical reports. The software can be installed as a standalone on one machine or networked through your school server. A cloud-based system is in development.

Pergamon Mu offers streamlined access to:

- Readers
- Catalogue
- Circulation
- Reporting
- Import and Export

**Free information for all
schools**

Pricing Structure

- £500 for the first year (includes installation, support* and software updates)
- £275 for support* per year for subsequent years
- £50 to convert book data onto the Pergamon Mu catalogue

First line support is provided by your local School Library Service (SLS)

NO CHARGE TO ATTEND
